## Algae Answers Mean Green Workshops

**blue green algae questions and answers - saskh20** - blue-green algae questions and answers what happens if i come into contact with blue-green algae? if you swallow contaminated water, you may experience headaches, fever, sore throat, dizziness, stomach

**blue-green algae in new brunswick lakes: questions and answers** - blue-green algae in new brunswick lakes: questions and answers what are blue-green algae (cyanobacteria)? blue-green algae, also known as cyanobacteria, are plant-like bacterial organisms. they are naturally found in many types of water systems including ponds, lakes, rivers and wetlands. they are not normally visible, but under the right conditions (warm, slow moving, shallow water and enough ...

**algae and algae pressing - university of hawaii** - algae and algae pressing background information on algae: although they do photosynthesis to gain energy, algae are not true plants. most plants

**attachment f scientific peer review - swrcb** - answers to review questions 1. does the staff report adequately and correctly address the effects of nutrients in a freshwater stream system? yes, in general....but you have not really made a very strong case relating the current n & p levels to any conditions that impair water quality and adversely effect any beneficial use except municipal water supply. 2. are nutrient dynamics, including ...

**harmful algal blooms (habs) frequently asked questions** - blue-green algae, which is actually a bacterium, produce toxins which can cause skin reactions, respiratory problems, diarrhea, vomiting or even death if ingested, especially in children or the elderly.

**pollution effects on algae lab - pcearths.weebly** - "blue-green algae") as well as green, brown and red algae. most algae grow through photosynthesis - by converting sunlight, co2 and a few nutrients, including nitrogen and phosphorous, into material known as biomass.

**001-029 u1-ak bio11tr** - plants, algae, and some bacteria, use to chemically convert carbon from carbon dioxide into glucose using light energy from the sun. oxygen is also produced in the process. b. cellular respiration is a process that releases the energy stored in glucose. carbon dioxide and water are also produced in the process. the chemical reactions involved in cellular respiration occur in most species ...

**questions and answers about dha/ara and infant formula** - questions and answers about dha/ara and infant formula what is dha? dha, which stands for docosahexaenoic acid, is a type of fat. this particular fatty acid is abundant in the gray matter of the human brain and in the membranes of the retinal photoreceptors in the eyes.1 it is a 22-carbon long-chain polyunsaturated fatty acid of the omega-3 family. research suggests that dha from a mother's ...

**algal bloom crisis - jaconline** - algae range in size from microscopic bacteria or plants to large plants such as kelp. algae are important in water as they use carbon dioxide, nutrients and sunlight to make their own food (by a process called photosynthesis) and to produce oxygen.

**national center for case study teaching in science testing ...** - what does it mean if the response between new jersey and maine is the same on both toxic and non-toxic food? michamiel fmcfnlganl iuflucrslcffi phmolhmlu hfm f "testing for grazer adaptation to toxic algae" by finiguerra, dam, & avery page 5 part iv - results and data analysis scientists wanted to determine if a history of exposure led to adaptation of copepods to toxic alexandrium. they ...

**research questions, hypotheses and objectives** - no difference in mean functional outcome between the computer-assisted insertion and free-hand placement techniques. after forming the null hypothesis, the researchers would form an alternate hypothesis stating the nature of the difference, if it should appear. the alternate hypothesis would be that there is a difference in mean functional outcome between these techniques. at the end of the ...

**photosynthesis and cellular respiration kit a thing ...** - photosynthesis and cellular respiration kit ... the algae in your fish tank to the birds in the trees to the great white sharks in the ocean. while exploring these subjects you will have the opportunity to ask questions and search for answers to these questions. sometimes you will find the answers and at other times you will discover more questions; both will contribute to your knowledge ...

**assessent o reing riting n mthetics instructions** - answers from the past five years are available at eqao. items that are not being published have been described below, with a reference to the skill they assessed.

**marine biology worksheet ii: selected answers ...** - worksheet ii: selected answers invertebrates and algae. 2 chapter 4: taxonomy section at end 1. what are some differences between kingdom(domain) bacteria and kingdom (domain) archaea? prokaryotic bacteria were separated into these two kingdoms (domains) recently when new techniques to analyze dna showed that there were two groups of prokaryotic bacteria that differed significantly in their ...

**u.s. army corps of engineers lakes questions and answers ...** - questions and answers harmful algae blooms (hab) monitoring for hab what do the current testing results indicate and how do the results affect me? counts above 100,000 cells per milliliter require a caution to be issued to the public with caution alert information physically posted. a caution advisory indicates a hab is present and a moderate probability of experiencing adverse health effects ...
