# Astm D5882 00 Standard Test Method For Low Strain

**standard test method for low strain impact integrity ...** - designation: d 5882 - 07 standard test method for low strain impact integrity testing of deep foundations1 this standard is issued under the fixed designation d 5882; the number immediately following the designation indicates the year of **standard test method for high-strain dynamic testing of ...** - last previous edition approved in 2000 as d 4945 - 00. 2 for referenced astm standards, visit the astm website, astm, or contact astm customer service at service@astm. **astm d5882 - 16 compliance statement** - developing, manufacturing and marketing of deep foundations quality assurance ndt equipment since 1996 astm d5882 - 16 compliance statement i hereby confirm that the pet system running in gps of tware **test method for low strain integrity testing of piles** - measurements and analysis results method and testing procedure is standardized with astm d-5882-00 "standard test method for low-strain integrity testing of piles". **wave propagation theory - testing deep foundations** - piles (astm d 4945-00) wave propagation theory theory (part 1) a stress wave travels through a uniform material at a predictable rate (wave speed). the wave speed for structural steel is 16808 feet per second (fps), > 3 miles per second. the wave speed for normal concrete/grout is about 13,000 fps, but varies based upon strength, elastic modulus, unit weight, etc. crosshole sonic logging ... **astm d 5882 - 07 compliance statement** - astm d 5882 - 07 compliance statement i hereby confirm that the pet system, running pet version 3.0.0 (or higher) meets, or exceed, the requirements of astm **sonic echo/impulser response - olson instruments** - standards for the se/ir method include astm d5882-00 for low strain integrity testing of piles and aci 228.2r for nde applications. see end of document for full references. **comparing cross-hole sonic logging and low-strain ...** - comparing cross-hole sonic logging and low-strain integrity testing results white, b., nagy, m. & allin, r. grl engineers, inc., usa keywords: cross-hole sonic ... **quality assessment procedure and classifications of cast ...** - astm d5882. it primarily relies on the measurement of the pile top motion following a light hammer impact. stress wave reflections from increases or decreases in shape or concrete quality along the pile are registered by the measurements at the pile top and then interpreted by the test engineer. if, for example, the cross section sharply decreases at a certain distance below the pile top, then ... **method statement - i-astm** - the test shall conform to the astm d 3689-90 (reapproved 1995) "standard test method for individual piles under static axial tensile load." with load sequence as explain below. **distribution statement a - power lift** - 1 this test method is under the jurisdiction of astm committee d-18 on soil results of a test on a similar nearby vertical pile generally may be used to and rock and is the direct responsibility of subcommittee d18.11 on deep **dynamic pile testing - piledrivers** - 1 dynamic pile testing astm d4945 pile driving analyzer ® garland likins, pile dynamics, inc. 2011 pdca professor's institute public assured of safe foundation **sonic echo/impulse response - aplace by glenvill** - sonic echo / impulse response (se/ir) investigations are performed to evaluate integrity and determine the length of deep foundations. sonic echo is also commonly known as pile integrity testing or low strain dynamic pile testing and is covered by astm d5882-00 and as 2159-2009. the se/ir test can be performed on concrete, wooden and steel piles. the test can also be performed on shallow wall ... **approval & reception procedure - lecm** - approval & reception procedure dg - geotechnical department document no. arp/dg/09 date: 2010/07/01 pile integrity verification procedure a pile sonic integrity test page no. 1 of 1 1. reference standard regulamento de fundações art o 99, astm d5882-00, especificação lecm 2. information to be submitted pile characteristics (type, diameter and verticality) pile installation records ...
